Addvalue Appointed by Inmarsat as a Manufacturing Partner for Fleet One, Inmarsat's new Maritime Satellite Service

Singapore, 19 February 2014 – Addvalue Technologies Ltd is pleased to announce that its wholly-owned subsidiary, Addvalue Innovation Pte Ltd, the leading innovator in wireless and broadband satellite communications technology products, has been appointed by Inmarsat as a manufacturing partner for its new maritime satellite service called Fleet One.

Fleet One is Inmarsat's new voice and data satellite service designed specifically for the maritime leisure and fishing community which is due to enter commercial service during the second quarter of 2014.

Commenting on the appointment, Mr Frank Coles, President, Inmarsat Maritime, highlighted that "Addvalue is a long-standing, trusted partner of Inmarsat and today's appointment represents an expansion of the partnership between our respective companies." He added that "Addvalue has a proven history of manufacturing highly reliable terminals, supporting a range of Inmarsat services, and we are pleased to have them join us as we prepare to unveil Fleet One in Q2."

Dr Colin Chan, Chairman & CEO of Addvalue Technologies, remarked that "in further strengthening our more than a decade long partnership, Addvalue is indeed proud and honored to have once again teamed up with Inmarsat in its latest program to address the small vessels market. We will certainly uphold our very best efforts in seeing the endeavor to a resounding success."

Fleet One will be the latest addition to Inmarsat's L-band portfolio. The new service has been designed to meet the particular communications needs of leisure mariners,

day boaters and sport and coastal fisherman, providing uninterrupted, near-shore voice and data connectivity.

About Addvalue (www.addvaluetech.com)

Addvalue Innovation Pte Ltd, a wholly-owned subsidiary of SGX Mainboard-listed Addvalue Technologies Ltd (A31), is a leading one-stop digital, wireless and broadband communications technology products innovator, which provides state-of-the-art satellite-based communication terminals and solutions for a variety of voice and IP based data applications.

Addvalue is presently a leading global developer and supplier of mobile satellite terminals supporting coverage provided by premier mobile satellite communication operators. These terminals are ideal choices for communications in areas around the world where terrestrial networks are non-existent, or ineffective. This is particularly so for maritime communications, which rely almost entirely on satellite communications, and Addvalue's products are well poised to address these needs.

About Inmarsat (www.inmarsat.com)

Inmarsat plc is the leading provider of global mobile satellite communications services. Since 1979, Inmarsat has been providing reliable voice and high-speed data communications to governments, enterprises and other organizations, with a range of services that can be used on land, at sea or in the air. Inmarsat employs around 1,600 staff in more than 60 locations around the world, with a presence in the major ports and centres of commerce on every continent. Inmarsat is listed on the London Stock Exchange (LSE:ISAT.L).
